## Technical Information

VLeBooks requires that each student is individually authenticated to fully exploit the full functionality of your eBook platform. Ideally your students will already login to an existing system which can seamlessly authenticate through to VLeBooks.com. Alternatively you can create users directly on VLeBooks using our simple administration interface.

The following will allow Browns Books for Students to understand your requirements and better assist you in the setup of your eBook platform, and integrate into your current environment.

Do your students login to your Library Management System (LMS), Virtual Learning Environment (VLE), or single sign on via institution network?

If **YES** please provide the details below:

**Yes**  **No**
